HEADMASTERS

Mid-Lights Lift

Headmasters new and exclusive hair service says goodbye to unhappy hair weeks where your roots aren't big enough to justify getting your highlights done again, but re-growth is visible. Move seamlessly between colour appointments with Headmasters new innovative Mid-lights Lift.

Your Headmasters colourist will mix a bespoke toner for your colour which is applied at the backwash by a colour assistant along with a colour preserving conditioner, followed by a blow-dry of your choice from the Headmasters blow-dry menu.

This extra colour service does no damage to your hair but improves condition, shine and smoothes the transition between highlight appointments. Its perfect for women who have their highlights every 6-8 weeks but always like to look groomed and polished.

This service costs £35 meaning you can have beautiful colour everyday at an amazingly affordable price. This new service is available from May and is exclusive to Headmasters salons.
