# The Colour that's on Everyone's Wish list this Season is Natural, Fresh and Gorgeously Sun-Kissed.

After the longest winter everyone's looking forward to a summer in the sun, but prolonged exposure can make hair brittle, frizzy & faded. Brassy, sun exposed hair is never good so Headmasters have developed Light Effects with Micro Wand. This technique means you don't need to over expose hair in the sun (protecting your hair investment) whilst recreating that summer in the sun without having to step on a beach.

## YOUR MOST NATURAL, SUN-KISSED COLOUR EVER

Ideal for every hair colour, Headmasters Light Effects with Micro Wand is a unique technique that uses an ultra fine hair colouring wand (similar to a mascara wand) to delicately place fine lights along the soft baby fine hairs around the face. Lifting and lightening where the sun naturally would, your expert colourist will choose a shade that complements your skin tone, hair colour and eyes to create a flattering, soft, illuminated effect for an altogether more real colour.

Used in conjunction with traditional highlights and balayage it will fill the gaps between the hairline and root for a radiant, flattering, natural colour that highlights features. Simply ask your stylist to add onto your colour service and leave with your most natural, sun-kissed colour ever.

**Complementary with any other colour service, available nationwide.**

### Celebs who love:

Angelina Jolie, Elisabeth Olsen, Kate Moss, Lindsey Wixson, Cara Delevingne.

### Caring for your colour:

To keep hair in top condition try Headmasters Miracle Repair Collection the ultimate protection for healthy, shiny, smooth hair available at Headmasters salons and Tesco stores nationwide.
