

SUPER
NATURALS

the perfect no colour hair colour

SUPER**N**NATURALS

Inspired by style icon and all round British sweetheart Kate Middleton, Super Naturals, transforms hair so it looks radiant and healthy with a subtle hint of colour. Perfect for brunettes or natural blondes who want to achieve expensive looking colour with almost no re-growth.

Exclusive to Headmasters this super quick lunchtime technique takes an hour and half, ideal for anyone who loves low commitment tailor made colour. Using an ultra gentle glossing instead of harsher colourants your Headmasters colourist will paint super fine ribbons of carefully selected colour a couple of shades lighter or darker than the natural colour throughout the top layer and around the hairline, where hair would naturally lighten, followed by a blow-dry of choice from the Headmasters Blow-Dry Menu (works perfectly with the Royal Belle Blow-dry).

Acting like a deep conditioner with colour enhancing qualities the glossing colour will delicately lift the skin tone, highlight features and cover first greys whilst ensuring re-growth is kept to a minimum for a healthy, luminous, glossy colour.

It's a gorgeous, high-shine, natural looking hair colour worthy of royalty and anyone else who wants to look naturally polished every day.

From £55, available nationwide.
