

EDIBLE HAIR CARE RANGE BY

HAIR GAIN

feed your follicles

Hair care just got tastier with the launch of Hair Gummies by Hair Gain.

Hair Gummies is the latest launch from leading hair supplement brand Hair Gain, offering a clinically effective, results-driven formula to improve hair growth, thickness and strength.

A global first in hair growth, Hair Gummies by Hair Gain contain everything you need for fuller, thicker hair. The gluten-free gummies are suitable for vegans and vegetarians and are Halal approved.

Ideal for those who don't like taking tablets, the chewable and easy-to-digest gummies provide a sophisticated solution for strong, shiny, healthy hair, skin and nails. Not to mention they're tasty too! Simply chew two delicious gummies a day to support healthy hair growth. Hair Gummies by Hair Gain can easily become part of your essential beauty routine at home or on the go.

Backed by trichologists, Hair Gummies by Hair Gain contain clinically proven organic pea shoot powder, derived from the small but mighty pea shoot. This powerful ingredient stimulates the dermal papilla cells in the follicles to help kick-start hair growth and promote visibly fuller, thicker hair in just one month.

What's more, the mighty pea shoot helps to promote Noggin, a protein that shortens the hair loss phase, and Fibroblast growth factor-7 (FGF7), which provides the best possible conditions for growth. Biotin, Zinc, Niacin, Vitamins C, E and B5 and Selenium all contribute to keeping hair, skin and nails looking and feeling great on the inside and out.

Hair Gain founder Lucy Palmer says: "We're delighted to be increasing our hair growth range with the launch of Hair Gummies by Hair Gain, which sit alongside our Hair Gain Grow capsules to provide thicker, fuller hair for everyone."

The gummies contain no artificial flavours, colours or sweeteners, only the 100 percent natural flavour of apple and berry, and a fat free formula – with only 15 calories per serving (2 gummies is the equivalent to a slice of apple). Two should be taken daily with water.

RRP £29.99 for 60 gummies (one month's supply)

Stockists: Cult Beauty, Ideal World Channel, selected spas and salons and hairgainnow.com.
